## Unit Retirement Notification

Dear Alex Rossner,

This email is to acknowledge that on 27 Jan 2016 12:21:47 PM, zukunftswerk eG retired 1750 Gold Standard Voluntary Emissions Reductions (VER) credits.

The VER credits were issued by The Gold Standard Foundation following a rigorous carbon offset project registration process. The robust monitoring, reporting and verification process ensures the originating offset project delivers real, permanent and additional emission reductions whilst positively contributing to local and global sustainable development. The issuance and ownership of these Gold Standard VER credits have been tracked in The Gold Standard Environmental Registry using unique serial numbers to prevent double counting or double selling. These VER credits have been retired from the registry PERMANENTLY, no one else can hold or retire these credits. Details about the VER credits are listed below.

Quantity of retired VER credits: 1750  
VER credit serial numbers: GS1-1-TR-436-12-2011-266-19734 to 21483  
Date of retirement: 27 Jan 2016 12:21:47 PM  
Retirement comments: Retirement on behalf of our customer Sutterlüty Handels GmbH, Egg,  
purpose: CO2 compensation business year 2016  
Originating carbon offset project: Akbük Wind Farm Project, Turkey  
Project type: Wind  
Country: Turkey

Visit [goldstandard.org](http://goldstandard.org) for more information about The Gold Standard Foundation or Gold Standard Registry.

Public records of the retired credits can be viewed on the Markit Environmental Registry. Each report contains additional information about the offset project including all the project documentation.

If you have any questions, please contact the Gold Standard Administrator.

Kind regards,

The Gold Standard Registry Team
