## Unit Retirement Notification

Dear Katrin Tremmel,

This email is to acknowledge that on 10 Jan 2017 12:34:29 PM, zukunftswerk eG retired 8750 Gold Standard Voluntary Emissions Reductions (VER) credits.

The VER credits were issued by The Gold Standard Foundation following a rigorous carbon offset project registration process. The robust monitoring, reporting and verification process ensures the originating offset project delivers real, permanent and additional emission reductions whilst positively contributing to local and global sustainable development. The issuance and ownership of these Gold Standard VER credits have been tracked in The Gold Standard Environmental Registry using unique serial numbers to prevent double counting or double selling. These VER credits have been retired from the registry PERMANENTLY, no one else can hold or retire these credits. Details about the VER credits are listed below.

Quantity of retired VER credits: 8750  
VER credit serial numbers: GS1-1-TW-GS472-12-2015-4604-36905 to 45654  
Date of retirement: 10 Jan 2017 12:34:29 PM  
Retirement comments: Retirement on behalf of 11er Nahrungsmittel GmbH, „CO2-Emissionsausgleich für das Geschäftsjahr 2017“  
Originating carbon offset project: InfraVest Changbin and Taichung bundled Wind Farms Project - Taiwan (300190)  
Project type: Wind  
Country: Taiwan

Visit [goldstandard.org](http://goldstandard.org) for more information about The Gold Standard Foundation or Gold Standard Registry.

Public records of the retired credits can be viewed on the Markit Environmental Registry. Each report contains additional information about the offset project including all the project documentation.

If you have any questions, please contact the Gold Standard Administrator.

---

Kind regards,

The Gold Standard Registry Team
